

Hoof Matrix

SCIENCE AT THE SOURCE OF EVERY STRIDE

VETERINARY PRESCRIPTION REQUIRED

Hoof Matrix is a patent-protected topical hoof formula applied at the coronary band — the point where new hoof horn begins. It supports moisture balance, hoof wall structure and normal healthy growth, and is dispensed as a compounded preparation by veterinary prescription.

SPONSOR-REPORTED INVETUS STUDY HIGHLIGHTS

+11.8%

Hoof wall moisture vs
controls (Day 35)

72.7%

Lower blinded farrier crack
score

60%

Better blinded vet texture
score

84 days

Chronic case photo
documentation

Randomized & controlled

20-horse cohort

Blinded vet & farrier scoring

Not independently validated

APPLICATION AT A GLANCE

- Where: massaged around the coronary band (~½ teaspoon, or as directed on the prescription label).
- Preventive / maintenance: twice weekly.
- Cracked, weakened or slow-growing hooves: once daily until improvement, then maintenance.
- Chronic hoof concerns: twice daily under the prescribed hoof-care plan.
- Supplied as a 250 g / 8.8 oz jar.
